

State-owned Corporation of Arzaq – A Leading Provider in the Food Supply Sector!

State-owned Corporation of Arzaq is a trusted and reliable source in Afghanistan's food supply sector. For many years, it has been providing and delivering high-quality food products to government institutions at reasonable prices.

Over the past four years, the company has achieved significant progress and currently holds supply and delivery contracts with four key ministries.

State-owned Corporation of Arzaq strives to further expand its core operations in order to deliver reliable services to other institutions that require food supplies. With its strong background, dependable services, and solid capacity, the company is fully capable of managing contracts with confidence and ensuring timely delivery of essential goods.

The company's leadership is committed to playing an effective role in the country's economic development. They aim to support local production by purchasing agricultural goods from domestic farmers, investors, and traders, and supplying them to government entities under existing contracts. This approach not only promotes local products but also strengthens the nation's agriculture and economy.
